2. In sub-section (*2*) of section 11 of the Indian Motor Vehicles Act, 1914 (hereinafter referred to as the said Act), VIII of 1914.—

(*a*) after clause (*dd*) the following clause shall be inserted, namely:—

"(*ddd*) regulating the manner in which, and the duration for which, licences may be endorsed under sub-section (*2*) of section 18;"; and

(*b*) after clause (*h*) the following clause shall be inserted, namely:—

"(*hh*) prescribing the procedure to be observed by Courts in permitting offences to be compounded under section 16A;".

Insertion of new section 16A in Act VIII of 1914.

Composition of offences.

3. After section 16 of the said Act the following section shall be inserted, namely:—

"16A. (*1*) Offences punishable under this Act (other than offences under sections 3, 5, 6 and 7 and such offences against rules made under this Act as the Local Government may, by notification in the local official Gazette, have declared to be non-compoundable) shall, with the permission of the Court, be compoundable, either before or after the appearance of the accused, on payment by the accused of such sum, not exceeding the maximum amount of fine with which the offences are made punishable by this Act, as the Court may determine.

(*2*) The composition of an offence under this section shall have the effect of a conviction of the accused with whom the offence has been compounded."

*The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

In 1932, the Government of the United Provinces appointed a Committee to consider the taxation of road traffic. That Committee recommended *inter alia* that purely technical offences under the Indian Motor Vehicles Act, 1914 (VIII of 1914), or the rules made thereunder should be compoundable at the option of the alleged offender. The Bill seeks to give effect to this recommendation. It is thought that offences under sections 3, 5, 6 and 7 of the Act should not be made compoundable, and as regards offences against the rules made by Local Governments under section 11 of the Act, it is proposed to leave it to them to notify what such offences are to be made non-compoundable. Other offences should be made compoundable, with the permission of the Court, either before or after the appearance of the accused in the Court, for a sum not exceeding the maximum amount of fine for the offence concerned. Such composition should count as a conviction, and the driver's licence will be liable to be endorsed under sub-section (*2*) of section 18. The machinery for composition of offences is left to be governed by rules to be made under the Act.

Some difficulty has been experienced as to the periods for which endorsements on drivers' licences should subsist. It is proposed to leave the matter to be regulated by rules made by Local Governments under section 11 of the Act.

Appointments.—The Hon'ble Mr. R. N. L. Buckland, K.T., resigned on leaving India for good.

The Committee have to record with great regret the retirement of Sir Philip Buckland who has been President of the Honorary Committee of Management from 29th March 1921 to 12th July 1934. Like his father the Hon'ble Mr. C. E. Buckland, C.I.E., and his grandfather before him, the late C. T. Buckland, I.C.S., both of whom were closely concerned with the Zoological Gardens since its start in 1873. Sir Philip Buckland has, in spite of his manifold duties in other branches of public service, taken a very keen interest in the development and maintenance of the Gardens, which during his term as President, have been expanded and improved very considerably.

The Committee of Management take this opportunity to express their very sincere gratitude for the invaluable service he has rendered to the welfare of the Gardens.

Messrs. J. K. Clough and A. F. M. Abdul Ali were appointed as members of the Committee on 2nd August 1934 and Mr. Sudhansu Kumar Mitter was appointed as a member from 2nd March 1935, *vice* Mr. Dhirendra Nath Ghose, to represent the Calcutta Corporation for the year 1934-35.

Staff.—Several changes took place in the Garden's staff during the year under review. Rai Sahib Somadev Ganguli who had held the post of Superintendent since 1930, retired on pension on the 15th February 1935 and Mr. N. N. Banerjee, the First Assistant Superintendent, was appointed in his place on a year's probation. Khan Sahib S. M. Yaqub, the Second Assistant Superintendent, was promoted to the post of the First Assistant Superintendent and Mr. N. Mukerjee, the Overseer, to the post of Second Assistant Superintendent.

The Committee would also like to place on record their regret at the retirement of Rai Sahib S. Ganguli, who served faithfully and was in various capacities since 9th May 1905.

The following is a list of the superior staff of the Garden at the end of 1934-35 :—

Superintendent—Mr. Nagendra Nath Banerjee, G.B.V.C., F.Z.S., F.R.H.S.

First Assistant Superintendent—Khan Sahib S. M. Yaqub.

Second Assistant Superintendent—Mr. N. Mukerjee, G.B.V.C., F.Z.S., F.L.S., F.R.H.S.

Store-keeper—Babu Jugal Kishore Roy.

Clerk—Babu Tarak Chandra Chatterjee.

Gate-clerk—Babu Bepin Behari Chatterjee.

The menial staff of the Garden at the end of 1934-35 comprised, in addition to temporary men who were engaged as required—

1	Jamader.	1	Cook.
8	Durwans.	1	Head Gardener.
20	Keepers.	2	Cartmen.
14	Gardeners.	1	Nightwatchman.
3	Sweepers.	2	Chaprasis.
1	Carpenter.	1	Syce.
2	Bhistis.	1	Scytheman.

On the whole, the health of the animals, specially of the older inhabitants of the Gardens, continued good. Cases of illness and death are unavoidable in a collection of animals in a tropical climate, but fortunately there were no serious losses. There was no outbreak of epidemics of any kind during the period under review. There were many births amongst the ruminants and also the birth of two lion cubs might be regarded as a fair indication of the satisfactory state of the health of the larger carnivora generally. The death-rate among the birds has sensibly diminished and birth-rate increased. In fact, throughout the year the standard has been fully maintained both as regards the numbers in the collection and the condition of the animals.

The following new works were undertaken during the year:—

Murshidabad House.—A rather severe storm on the evening of 15th June 1934, caused considerable damage to the northern portion of the outer enclosure of the Murshidabad House as well as to a portion of the Boat House where the big Gharial is now exhibited. This necessitated the reconstruction of the damaged portions of both the houses. In the later part of the year the wire-netting all round the Murshidabad House was renewed and in addition to this several partitions with dwarf walls were provided to facilitate the exhibition of new exhibits.

Sarnomoyi House.—As there was no suitable accommodation for exhibiting new small birds, such as finches, etc., the large aviaries of this house were partitioned and new birds and small finches are now exhibited in the separate aviaries provided therein.

New Island Enclosure.—The dwarf wall round the trench being too low at its maximum water level it was raised by 2 feet to prevent animals escaping out of the enclosure.

Peafowl Pavilion.—This pavilion was thoroughly overhauled; the wire-netting being replaced by interlinked wire-netting, several other improvements were also effected and the wall round the enclosure was raised by 2 feet. The floor was made rat-proof.

Giraffe Enclosure.—The fencing of the Giraffe Enclosure was not sufficiently high and was replaced with a new high fencing.

Superintendent's quarters.—In the later part of the year an estimate was sanctioned for repairing the Superintendent's quarters and the necessary repairs have been carried out.

Barasingha and Barking Deer Enclosures.—A new partition wall and fencing have been constructed.

General annual repairs to the buildings in the Gardens were carried out as usual and alterations to iron work and wood work and the painting of most of the houses were effected.

The flower gardens were well maintained as usual, the gardens being awarded prizes at the Agri-Horticultural Society's Flower Show (Dahlia Exhibition) held on 14th January 1935.

The roads and paths were kept in good order and the main drive was remetalled in parts.

The financial conditions of the Garden are satisfactory inasmuch as the expenditure is balanced by income. The receipts from visitors entering the Gardens showed an increase over the previous year being Rs. 65,055 against Rs. 59,812-4. This, however, is largely due to the Ardhyodaya Yoga festival which fell in February this year after an

interval of 27 years. The turnstiles registered a record attendance of 67,271 visitors during the four days of the festival. To relieve the congestion of the people wanting admission at the 5 ordinary turnstiles of the entrance gates, an emergency gate with 6 extra turnstiles was kept open during the four principal days of the festival. Special and efficient sanitary arrangements were made for the comfort and convenience of the visitors.

The following is a comparative statement of visitors and receipts for the last four years:—

	Visitors.	Receipts.	
		Rs.	a.
1931-32	928,501	62,141	6
1932-33	930,004	62,231	6
1933-34	911,621	59,812	4
1934-35	1,011,616	65,055	0

A large number of children under four years of age and school children attended by their teachers, were admitted free. In addition 56,721 persons visited the Garden on free days. A detailed statement of the number of visitors and receipts appears in Appendix B.

The Annual Fancy Fair was held as usual on the 31st December 1934 and 1st January 1935. The turnstiles recorded 20,182 one-anna visitors as against 21,480 visitors on both days in the previous year.

The thanks of the Committee are due to those ladies and gentlemen who have added to the Zoological collection, a list of whom is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted either because the particular species was already sufficiently well represented or owing to want of accommodation.

The Committee also desire to express their thanks to the following railway and steamer companies for kindly conveying the animals belonging to the Garden free of charge:—

East Indian Railway, British India Steam Navigation Company, Limited, Peninsular and Oriental Steam Navigation Company, and River Steam Navigation Company, Limited, through Messrs. Macneill & Co.

As in previous years the Corporation sanctioned a grant in the shape of remission of municipal rates in respect of the Zoological Gardens and out-houses for which the Committee express their thanks but it is a matter of great regret and indeed it caused the Management of the Gardens no small inconvenience and anxieties that owing to financial stringency the Corporation found themselves compelled to reduce the grant from the figure of Rs. 26,233-6 to Rs. 21,904-14 which it had been in the habit of giving over a long series of years.

Thanks are also due to the Officer Commanding and Officers of the 2nd Battalion, 7th Rajput Regiment, stationed at Alipore, for permitting their regimental band to play at the Garden on Tuesday afternoons, free of charge, from 1st March to 31st December 1934.

Owing to the decrease of one rupee visitors on Sunday afternoons the Committee reduced the entrance fee to one anna from 10th March 1935. This has necessitated for financial reasons giving up the Band which played on Tuesday and Sunday afternoons.

The Committee are much indebted to those members of the public who send old and broken down horses to the Zoological Gardens, where they are disposed of under the most humane conditions.

R. N. REID,
President.

Honorary Secretary.

Section 3	Bringing of water hyacinth into Bengal.
Section 4	Sale, etc., of water hyacinth.
Section 5	Growing or cultivation of water hyacinth.
Section 6	Removal of water hyacinth to any land, premises or water.
Section 7, sub-section (*3*)	Failure to remove or destroy water hyacinth.
Section 8	Removal of water hyacinth except under the directions of an Authorised Officer.
Section 9, sub-section (*1*)	Failure to cut branches of trees or shrubs, and to remove undergrowth, jungle or vegetation.
Section 13, sub-section (*2*)	Removal of or damage to any fences, barriers, storage pounds, booms and floating barriers.

Section 15	Failure to grow hedges of *dhaincha* or other plants for protecting against the ingress of water hyacinth.

STATEMENT OF OBJECTS AND REASONS.

The Report of the Water Hyacinth Committee in December, 1922, contained a recommendation that some form of legislation should be adopted which would ensure concerted action against water hyacinth in Bengal; but with this was coupled another recommendation, that scientific investigation should be undertaken in the first instance, which was in effect an admission that the time had not yet come when legislation could be effective. There had been legislation in other countries and in other provinces; but where the problem of water hyacinth was really serious, legislation had proved ineffective. In Bengal that problem was one of exceptional complexity and difficulty; and the estimated cost of dealing with water hyacinth by any known method was found to be prohibitive. The Local Government did not feel justified in asking for general powers to compel individuals to eradicate water hyacinth until they could point to a method by which water hyacinth could be eradicated without disproportionate expenditure; and therefore no action was taken on the recommendation of the Water Hyacinth Committee or on the further recommendation of the Conference held at Dacca in July, 1927, that legislation should be undertaken.

The position has now changed. In 1929 and 1930 it was proved in Orissa, by the work of Mr. Peck, District Magistrate of Cuttack, that under certain conditions water hyacinth could be practically eliminated by concerted popular efforts under the directions of a District Officer. In 1934 and during the present year it has been proved by the work done in the Brahmanbaria subdivision of Tippera, in three subdivisions of Faridpur, in parts of Rajshahi and, later, in other subdivisions of Tippera, that similar methods are effective in the vastly more difficult conditions which prevail in the river districts of Bengal. It has been established that the people in affected districts will respond to a call for concerted action and that such concerted action, directed and supported by the efforts of the district staff of Government, can in one season so diminish the water hyacinth in a district as to allow it to be controlled with comparative ease by similar action in subsequent years. The great difficulty now is the apathy, or the active opposition, of a minority who are not prepared to further a mass movement against water hyacinth by clearing their lands voluntarily; and it is to give powers to coerce this minority in districts where there is a voluntary campaign against water hyacinth that the present Bill is being put forward.

NOTES ON CLAUSES.

Clause 2 (6).—This definition of the expression "occupier" is based on section 2 of Madras Act III of 1919 with the modification that the words "not having such right" have been inserted before the words "in actual occupation of the land, premises or water" with a view to simplifying the operation of clause 12.

Clause 3.—It is not likely that any person now would deliberately bring water hyacinth into Bengal, but it should obviously be forbidden.

Clause 4.—It has recently been found that water hyacinth was kept for sale in some places in Calcutta and hence the necessity for stopping it.

Clause 5.—The prohibition of growing or cultivation of water hyacinth is not of any great importance. It is more a propaganda clause than anything else.

Clause 6.—The transport of water hyacinth except for the purpose of destroying it should be an offence wherever it happens. It is possible that some plant may drop down in course of such transport and hence there should be some prohibition against this.

Clause 7 is based on section 3 of Madras Act III of 1919. It provides for a notification which would inaugurate a campaign in any particular area against water hyacinth.

Clause 8.—It is desirable that the removal of water hyacinth for the purpose of destruction should be under the direction of an authorised officer.

Clause 9.—It may be difficult to discover water hyacinth when it is hidden by branches and water weeds and hence this provision has been made for detection of water hyacinth.

Clause 11 provides for the recovery of costs as a public demand. It has also been provided that the owners are liable for such costs in certain circumstances.

Clause 12 is based on section 90B of the Bengal Act III of 1885. It is intended that where ownership or occupation is disputed or where there are many co-sharers so as to render the recovery of costs impossible such costs shall be recovered out of the profits.

Clause 14.—It was found that young water hyacinth plants floated on to the fields through gaps in *ails* when water rose in tanks, etc., at the beginning of the rains. It is desirable that this should be stopped.

Clause 15.—*Dhaincha* hedges have been found to be very successful in saving deep water paddy and jute in low areas from being damaged by water hyacinth and so provision had been made for this.

Clause 16 provides for the use of waste or arable land for the purpose of destroying water hyacinth. Such land being the bank of the water from which water hyacinth is removed may not be in the possession of the occupier. It also provides for compensation and other incidental matters.

Clause 22 (3) gives power to the Local Government to provide for a penalty for breach of a rule.

PART IV

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 4524L.C.—9th December, 1935.—The following report of the Select Committee on the Bengal Court of Wards (Amendment) Bill, 1935, with the Bill embodying amendments recommended by them annexed, is hereby published for general information.

Report of the Select Committee on the Bengal Court of Wards (Amendment) Bill, 1935.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Court of Wards (Amendment) Bill, 1935, was referred by a motion carried in the Bengal Legislative Council on the 26th November, 1935, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed. All matter recommended to be omitted by the Select Committee has been printed in *italics* and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in English in an Extraordinary issue of the *Calcutta Gazette* of the 22nd August, 1935.

3. We do not consider that the Bill has been so altered by our recommendations as to require republication.

4. The Committee met for the first time on the 28th November, 1935, and concluded its sittings on the 30th idem.

5. The changes made in the Bill are as follows :—

Clauses 2 and 18.—The alterations made in proposed section 9A, in clause 2, and in clause 18 are consequential upon the insertion of proposed *clause 3* in section 23.

Clause 3(1) (a).—We have re-drafted the proposed proviso to section 10A, inserted by clause 3(*1*) (*a*) of the Bill so that notice of pending suits or proceedings in respect of claims shall be given within six months and notice of decision of civil courts in respect of such claims shall be given within three months after the final disposal of such suit or proceedings. We consider this change desirable as it will all the more help the Court of Wards to frame schemes with greater precision.

Clause 3(b) (ii).—The changes made in this clause are consequential upon the changes made in clause 3(*1*) (*a*).

Clause 5.—The alteration made in proposed section 10C is intended to make the intention clearer, viz., that the benefit under this section will be enjoyed only so long as the property is in charge of the Court of Wards. We have also substituted the words "four years" and "seven years" for the words "five years" and "ten years" respectively, as we consider the former periods to be more reasonable.

Proposed section 10CC supplies an omission by bringing the law relating to the limitation of suits against a ward into line with the proposed new law relating to limitation in regard to the execution of a decree or order. This will save persons from unnecessarily instituting suits against wards as they will not be able to execute the decrees so obtained during the period mentioned in proposed section 10C.

Clause 8.—The necessity for the proviso inserted by us in proposed section 11 is due to the fact that the incidence of proprietorship in a Mitakshra family is entirely different from that of other proprietors.

Clause 11.—We think it desirable that the educational expenses of the wards themselves should be included in class I of section 48. The changes made in clause 11 are with a view to give effect to this.

Clause 12.—We also consider it desirable that payment of rent and cess should have priority over "other Government dues" referred to in item (*5*) of proposed clause 2 of section 23 in the Bill as introduced. We have, therefore, transposed item No. (*6*) which deals with the former as item No. (*5*) in the said proposed clause.

Proposed clause 3 of section 23.—In view of the restrictions imposed on creditors by section 10C, as proposed to be amended by the Bill, we think it only fair that the Court of Wards, instead of releasing an insolvent estate to a proprietor, should be given discretionary powers to vest such estates with trustees, who will, in the administration of estates so vested, be under the control of civil courts. The trustees will receive their directions as to the disposal of the estates from such civil court of the district as may be prescribed by rules.

Clause 14.—In class II of proposed section 48 we have provided that debts secured by mortgage on immovable property shall have priority over debts which have been reduced under sub-section (*2*) of section 10D. We consider this reasonable.

In class III the words omitted in the last portion are consequential upon the changes made in clause 11.

The change proposed in class IV in item No. (*2*) is purely verbal.

Clause 16.—Under section 3(*17*) of the Bengal General Clauses Act, 1899 (Ben. Act I of 1899), "a thing is deemed to be done in good faith where it is done honestly, whether it is done negligently or not." We do not think it desirable that this definition of good faith should apply in the case of the Court of Wards Act, 1879.

For instance, we do not consider it right or proper that wilful negligence on the part of officers of the Court of Wards in the discharge of their duties under the Court of Wards Act, 1879, should be tolerated as the clause in the Bill as introduced seems to do.

The changes made in the clause are with a view to give effect to this opinion.

We recommend that the Bill, as reported on by us, be passed.

NOTE.—The signatures of Mr. N. K. Basu and Mr. Ananda Mohan Poddar had not been received up to the time of publishing the Report.

Minute of dissent by Khan Bahadur Muhammad Abdul Momin, M.L.C.

I do not agree to the principle of giving protection to estates of proprietors which are taken over by the Court of Wards under clause (*e*) of section 6, viz., those proprietors who have by extravagance and incapacity mismanaged their estates and made them over to the Court of Wards. I do not mind estates taken over under section 6 (*a*) to (*d*) being protected in the manner provided in clause 5 of the Bill.

I strongly object to clause 3 of the Bill which has been introduced by the Select Committee and was not in the Bill as originally drafted. By this clause it is provided that the Court of Wards when it finds itself unable to save the estate it may instead of releasing the estate to the proprietor hand it over to the trustees selected from among the creditors. This is a most extraordinary provision and if allowed to be made into law will cause the ruin of many *zemindari* estates—particularly as the provision will apply not only to estates which will be taken over by the Board in future, but also to those which are now under its management.

Minute of dissent by Babu Jatindra Nath Basu, M.L.C.

The following is my note of dissent to the Bengal Court of Wards (Amendment) Bill, 1935:—

"Clause 12 provides for the creation of a trust. There should be a provision enabling persons interested to apply to the Civil Court, for amongst other things—

(*a*) having the trustees removed and for having new trustees appointed,

(*b*) having a scheme framed, if necessary from time to time, for the administration of the trust,

(*c*) for having the trust terminated on grounds that may be considered sufficient by the Civil Court."

Joint minute of dissent by Maulvi Abdus Samad, M.L.C., and Mr. R. Maiti, M.L.C.

We sign the Report of the Select Committee on the Bengal Court of Wards (Amendment) Bill, 1935, subject to the following minute of dissent:—

We entirely agree with the general principles underlying the original Bill, but we oppose the insertion of the proposed new *clause 3 (1)* in section 23 of the Act. We reserve the right of moving amendments for its deletion in the open Council.

Minute of dissent by Maulvi Abul Quasem, M.L.C.

Clause 5.—I cannot agree that section 10C should be permanently replaced by the proposed sections 10C and 10CC. The present difficulties are admittedly due to the prevailing economic depression. With the passing of the depression there should be no reason for the continuance of these provisions. I am particularly opposed to the extension of the benefits of these sections to those proprietors who have been or may be declared disqualified under clause (*e*) of section 6. That clause should, in my opinion, be repealed.

Clause 12.—I cannot agree to the addition of the proposed clause 3 to section 23. It was not in the Bill, as introduced in the Council. It embodies a new provision and a new principle and should have been before the public and the Council before having been adopted by the Select Committee. In my opinion the procedure recommended will prove in practice to be difficult, dilatory, cumbrous and costly.

Minute of dissent by Raja Bahadur Bhupendra Narayan Sinha, of Nashipur, M.L.C.

I sign the Report subject to the following note of dissent:—

On principle I strongly object to the insertion of new clause 12(*ii*) because the underlying object is entirely new and has been adopted in the Select Committee for the first time. It was not recognized in the Bill so presented and the Council had no occasion to express any opinion on it, nor was public opinion elicited on this point by circulation. In my humble opinion the views of the public and of important associations should be called for before it may be adopted by the Council. The Council should know definitely the views of the public on this important question enunciating a new principle vitally affecting the party. If this clause be passed, it will prove ruinous to the estates. Without proper safeguards, the step of placing the management in the hands of the creditors will be like throwing the debtor's estate to the tender mercies of the creditors who will naturally care more for their dues than for the preservation of the estate.

Generally speaking, the Court of Wards takes up estates in which there is possibility of redeeming them after administrating for some time. Fifteen years are the average number of years in which an encumbered estate may hope to clear off debts and such estates are generally taken up by Court. But there may be estates in which more than that period, say twenty or thirty years or more, are required to restore the normal position of solvency. What would be the fate of such an estate? Are they to be declared as hopeless or will they be placed under the administration of creditors as proposed in this section? Generally, estates are to be administered for two or three years before any scheme can be made of the probable number of years in which the debts can be cleared, and it is for this that the extension of the moratorium is proposed in this Bill. If after administering the estate for two or three years, the Court finds that the estate is not redeemable in the course of reasonable time of fifteen years, but it will take more than fifteen years, they will then give up the administration and place it under the trusteeship of the creditors. In such cases, though the condition of the estate is not absolutely hopeless, but only requires some more time, the Court by their action deprive the debtor of the chances of redeeming it.

In the clause as drafted the expression "reasonable period" has not been defined. There is no bar to the relinquishment of an estate by the Court after two or three years' administration and the discretion of considering what "reasonable period" is, lies wholly in the Court of Wards and its proper exercise cannot also be questioned. Under the circumstances, some check on its exercise should be provided in the Act.

Vesting of the estate in a body of creditors is like vesting of a property in the Official Assignee. Very few estates are restored to the proprietors after administration by the Official Assignee as the establishment and other charges, such as, remuneration, etc., are so high that the estate is run through in meeting them. Thus there should be hard-and-fast rule with regard to the remuneration of trustees.

In any case, the creditors who will undertake the administration of the estate as trustees should be debarred from realizing their own dues in the first instance. The duty of trusteeship being statutorily cast on them, any non-administration or mal-administration should amount to breach of trust for which they should be liable. A clear provision to this effect should be embodied in the Bill.

In the existing Act the payment of all charges necessary for the maintenance, education and religious observances of the ward and his family has been made the first charge in Class I, and only the "payment of such religious, charitable and other allowances.....and allowances and donation befitting the position of the ward's family" has been relegated to the fifth position in Class II. There are indeed very cogent reasons for treating the maintenance, education and religious allowances of the ward as the first charge on the property. There are certain religious observances of an obligatory nature, either enjoined by the Will of the founder of the family or hallowed by tradition handed down through generations; the disturbance of such sort of religious observances will seriously wound the susceptibilities of the ward and of his family and also the public at large. So this provision of religious allowance should be placed in the same category with the allowance of wards.

Minute of dissent by Mr. D. J. Cohen, M.L.C.

Regarding the Howrah Bridge (Amendment) Bill, 1935, provision should be made in the Bill for exemption of land and buildings belonging to the Corporation of Calcutta, the South Suburban Municipality, and the Municipalities of Howrah, Tollygunge and Garden Reach, from the tax imposed by the Howrah Bridge Act, 1926. The provision in section 12 of the Howrah Bridge Act, 1926, does not give the Local Government power to exempt municipal properties from the taxation for the bridge, as the exercise of Government's powers is subject to the provisions of section 8.

It is necessary that there should be such exemption, as otherwise, the municipalities and the public concerned, will be seriously affected as regards the borrowing capacity of the municipalities and in other respects.

Minute of dissent by Babu Jatindra Nath Basu, M.L.C.

Regarding the Howrah Bridge (Amendment) Bill, 1935, provision should be made in the Bill for exemption of land and buildings belonging to the Corporation of Calcutta, the South Suburban Municipality, and the Municipalities of Howrah, Tollygunge and Garden Reach, from the tax imposed by the Howrah Bridge Act, 1926. It is necessary that there should be such exemption, as otherwise, the municipalities and the public concerned, will be seriously affected as regards the borrowing capacity of the municipalities and in other respects.

There should also be a provision enabling the Corporation to tax not only such property of the Bridge Commissioners as will yield income, but also such property as may belong to it and be used for offices or for quarters for staff. The Corporation will have to supply water and arrange for drainage and other amenities to such quarters.

Subject to the above, I sign the Report of the Select Committee.

Minute of dissent by Maulvi Muhammad Saadatullah, M.L.C.

I think that distinct provisions should be made in the proposed Bill to exempt the properties of the Howrah, Tollygunge, Garden Reach and South Suburban Municipalities and those of the Corporation of Calcutta which are exclusively used for public purposes and fetching no revenue from the levy of tax for the Howrah Bridge.

Resolution on the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, for the year 1934.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Public Health.

CALCUTTA, THE 9TH DECEMBER 1935.

RESOLUTION No. 3061 P.H.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, for the year 1934.

The inability of Government to make any grants towards the capital cost of waterworks and drainage schemes again had its effect upon the number of such schemes undertaken during the year; the decision of the municipalities mentioned in paragraph 20 of the Chief Engineer's report to carry out their schemes without any financial assistance or with only loans is all the more commendable.

The growing recognition of the importance of well-planned water-supply and drainage schemes for the health of the towns is further indicated by the number and extent of the schemes which the department was asked to draw up during the year. Sketch projects for schemes estimated to cost Rs. 36,50,720 were prepared, detailed projects for Rs. 4,00,400 and detailed estimates and plans for miscellaneous works amounting to Rs. 1,95,625.

The capital expenditure on waterworks in 1934 was Rs. 2,72,893 against Rs. 2,81,585 in 1933 and on sewerage works Rs. 2,26,339 against Rs. 3,32,136. This brings the total amount of capital expenditure till the end of the year up to Rs. 1,65,07,397 on waterworks and Rs. 87,21,876 on sewerage works.

The report gives some indication of the valuable assistance which the department is able to give to the municipalities in the matter of inspection, advice and supervision: the accident to the sewerage system at Dacca is an instance of the kind of emergency which it is called upon to meet.

The small sanitation scheme for the Narsinghdi police-station, Dacca, shows what can be done to improve sanitary conditions in rural areas at small cost.

With the increase in the population and the necessity of extending the water connection to all parts of the town, the provision of adequate supplies has become a pressing problem of considerable difficulty to many municipalities. A partial solution at least is to be found in many cases in the attachment of house connection meters in accordance with the provisions of the Bengal Municipal Act, 1932; this will ensure that the consumer pays according to the amount of his consumption, and thereby waste will be discouraged and additional income will be obtained. An alternative method of effecting a more economical use of the available supply is the "decentralised storage" system, which has been found successful in the areas in which it has been adopted.

The Sanitary Board held five meetings at which it examined the various projects before their submission to Government and generally reviewed the reports on the works and results of inspection, suggesting appropriate action. Their critical advice on such matters as the menace to Calcutta from the Anopheles Ludlowii and the plasmochin experiment in Burdwan was of particular value.

The Government of Bengal desire to convey their thanks to the members of the Board for the time and care devoted to its work and for the valuable advice which they have always given.

They also desire to express their appreciation of the services rendered by the officers of the department and the Chief Engineer, which Mr. F. C. Griffin carried out his duties as Chief Engineer.

By order of the Govt. of Bengal

(Ministry of Public Health),

S. K. HALDAR,

Secy. to the Govt. of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 6th December 1935.

Final Forecast of the Bhadoi Crops of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under autumn rice in Bengal has represented some 6·5 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the preliminary forecast weather was generally favourable for early period of sowing and growth. Since then drought and flood affected more or less the outturn in some West and North Bengal districts. In East Bengal low land crops progressed favourably while high land crops suffered to some extent from shortage of rain. On the whole the season was fairly satisfactory for the crops.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,567,100 acres as against 6,311,600 acres last year. Of this, the area under autumn rice is estimated at 5,851,300 acres as against 5,571,800 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 76 per cent. of the normal this year as against 73 per cent. last year. The autumn rice is estimated to yield an outturn of 75 per cent. of the normal for the province this year as against 72 per cent. last year.

On the basis of a normal yield of 12½ maunds of clean grain per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 2,015,100 tons this year as against 1,842,100 tons last year.

Director of Agriculture, Bengal.

Second Forecast of the Winter Rice Crop of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under winter rice in Bengal has represented some 17·9 per cent. of the total area under rice in India.)

Character of the season.—As indicated in the first forecast, the weather was generally favourable for broadcast paddy and for the transplantation of winter paddy except in high lands especially in West and North Bengal. Subsequent rainfall in September also favoured late transplantation with the result that more land was brought under cultivation. Drought in October materially affected the final growth and flowering of transplanted winter paddy specially in the high land tracts of West and North Bengal and the outturn consequently is likely to be considerably affected.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 14,836,500 acres as compared with 14,759,600 and 14,760,000 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district return appended, it will be seen that 1 district reports a normal crop, 15 districts a crop varying from 67 to 95 per cent. and the rest below 67 per cent. of the normal. According to the above estimates, the provincial outturn works out to 73 per cent. of the normal as against 81 and 85 per cent. in the corresponding and final forecasts of last year.

Accepting 73 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 13½ maunds of clean grain per acre, is estimated at 5,371,100 tons this year as against 5,928,800 and 6,221,800 tons, respectively, in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 14th December 1935.

First Forecast of the Spring Oilseed Crops of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under linseed in Bengal has represented some 3·5 per cent. and that under rape and mustard 11·3 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions. In the other two divisions, the area under cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 843,900 acres this year as against 886,400 and 892,100 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—From the end of September dry weather prevailed in West Bengal districts affecting sowings and growth of the crops generally. Elsewhere the condition is fair.

K. McLEAN,

Director of Agriculture, Bengal.

Dacca, the 6th December 1935.

Third Forecast of the Cotton Crops of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill-Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the second forecast in September last, the weather continued generally fair for the early crop and a higher yield is expected.

The outlook of the late variety in Midnapore is not promising. In Bankura, the crop was not sown this year on account of severe drought.

Area sown.—The total area sown with early cotton is returned at 72,793 acres and that with late at 500 acres as against 72,903 and 1,032 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 23,501 bales and the late crop at 46 bales as against 23,370 and 291 bales, respectively, in the corresponding forecast of last year.

Director of Agriculture, Bengal.
